# **EMIL WILLIAM**

# JUNIOR FRONT-END DEVELOPER

GitHub LinkedIn Portfolio

#### **PROFILE**

A project-driven Front-End Developer specializing in building responsive and performant user interfaces with **React**, **Tailwind CSS**, and **Tauri**. Eager to apply a strong foundation in modern web technologies and hands-on project experience to a challenging and collaborative team environment.

# **SKILLS**

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Rust

(Basics)

Tools & Platforms: Git, GitHub, VS Code, Figma, Xcode

Frameworks: React, Vite, Tauri

Concepts: RESTful APIs, State Management, Responsive Design, Styling & UI: Tailwind CSS, Framer

Motion, Headless UI

Native App Development

# **PROJECTS**

#### Cinera (macOS Application) | Video Demo

Tech Stack: Tauri, Rust, React, TypeScript, Tailwind CSS

- Conceptualized and designed a native macOS application for movie discovery, focusing on a clean, performant, and platform-consistent UI/UX.
- Architected the user workflow from initial search to detailed content view, solving challenges in data presentation and state management.

## Spotify Dashboard | Live Demo | GitHub Repo

Tech Stack: React, Vite, Tailwind CSS, Spotify API

- Engineered a front-end replica of the Spotify web player, integrating with the Spotify API for user authentication and data retrieval.
- Managed complex application state to display personalized user profiles, playlists, and listening history.

#### Expense Splitter Pro | Live Demo | GitHub Repo

Tech Stack: React, TypeScript, Vite, Tailwind CSS, Framer Motion

- Developed a feature-rich Single-Page Application (SPA) with advanced state management to simplify group expense tracking and settlements.
- Implemented flexible splitting logic (equal/custom amounts) and utilized browser local storage for persistent session data.

# **EDUCATION**

### **Bachelor of Computer Applications (BCA)**

AMRITA VISHWA VIDYAPEETHAM • 2022-2025 (Expected)

#### **Higher Secondary Education**

AMRITA VIDYALAYAM • 2017

#### **CERTIFICATIONS**

- CCNAv7: Introduction to Networks Cisco Networking Academy (Completed: June 2024)
- Programming Essentials in Python (PCAP) Cisco Networking Academy (Completed: February 2024)
- Capstone MOOC for Android App Development Vanderbilt University (Coursera) (Completed: January 2025)
- Responsive Website Development and Design Specialization Coursera (Completed: June 2025)
